EXPERIENCE

Full Stack Web Development Trainee *Jan 2023 – Mar 2023*
***8Queens Software Technology**, Chennai*

- Gained practical exposure to full-stack web development, working with frontend and backend technologies to build responsive and structured web applications.
- Designed and developed user-friendly web pages using HTML, following UI best practices and collaborating within an eco-friendly, team-oriented work environment.

Junior Trainee
United Soft Tech, Salem

- Underwent hands-on training in software development methodologies, coding standards, and application workflows.
- Collaborated with team members on real-time projects, assisting in development, testing, and debugging to support successful project delivery.
- Contributed to organizational projects and received a stipend (₹7,000 per month) for assigned responsibilities.

PROJECTS

Department Website Development

- Designed and developed the official department website using Python (Django), HTML, CSS, Tailwind CSS, and SQL.
- Implemented dynamic features for content management, student information, and department updates using Django backend logic.

Turf Online Booking System

- Developed an online turf booking system using Python (Django) to manage slot availability and bookings efficiently.
- Implemented user authentication, booking management, and admin controls using Django backend logic.
- Designed responsive user interfaces using HTML and CSS to ensure smooth user experience across devices.

EDUCATION

M.Sc Computer Science, Sona College of Arts and Science, Salem
CGPA: 8.2
B.Sc Computer Science, Sona College of Arts and Science, Salem 2021 – 2024
CGPA: 8.0

CERTIFICATION

- Certified in Python Programming – NSDC (covers core concepts and OOPS fundamentals).
- HOPE Foundation – Certification in Artificial Intelligence fundamentals.
- BBC Institute – Certification in Python and Web Development.
- Analyze Minds – SQL Projects for Beginners certification.
- Expertisor Academy – Certification in Prompt Engineering.
